

# Group Mentoring

## Why group mentoring can be essential for leaders within your company or organisation

Speaking is leading; real leaders speak with authenticity and impact! In some organisations and companies, there is a **group** in leading positions who need to develop their presentation skills fast, for example if the company has just been through a re-organisation, change or is growing fast. It is important to communicate all the changes well, to stay on track. The biggest pitfall after changes is the gap between the top-management and the 'floor'. Some organisations prefer to bring a group of leaders together, to get them on the same page and the same level to serve the organisation with effective and engaging presentations and speaking.

Do you need a clear 'voice of the organisation', 'the voice of the business'? Are there multiple candidates to get to the next level? Do you want them to be aligned, effective and still authentic? Our group mentoring program might be an option for you.

## The group-mentoring is a 3 months certification program

**Month 1:** We start with a group session in which there is lots of space for individual guidance as well.

**Month 2:** After the first session we continue with the individual sessions. Each participant will have 2 individual sessions. There is an interval of 4 weeks in between.

**Month 3:** In the last session we come back together. Each participant will give an individual presentation that will be supported by the other participants and the coach.

After completing the program with an individual presentation, the participants get their certification of Presenting with impact.

The group size is a maximum of 4 participants to keep up the calibrating level of improvement guaranteed.
