

# Conference Consultancy

## Why conference consultancy can be crucial for your company or organisation?

Hiring a special organisation to elevate your business conference can be quite pricey. How is the look and feel? Are the food and drinks on time, does the PowerPoint show on a large screen? Do you have a fancy video to show to your audience? Even the outcome of hiring a well-known or funny speaker won't last very long if solid ground and real impact is missing. The key to the success of your conference does not depend on those things!

If you would check with your participants what the real results from your costly conference are, you would be shocked by the outcome!!

The return on investment can increase by 50% if you know what to do, and how to do it. Your costs can often be lowered by 50% too.

Can you afford to continue the old way? Or is it time to invest in our consultancy? That would be a guaranteed money saver for years to come, and will increase your conference impact.

Do you want to know more about how to transform a business conference inside your organisation, to an conference that is worth every penny? If you say yes to those questions, we are a fit!

## What does the conference consultancy contain?

We start with an intake with the decision-makers. There is no point of working with a team at the start without full commitment of the top.

In the second session, we include all stakeholders, so all should be present.

From there we work with the project team at least twice a month and coach the team to become self-sufficient and at service for your conference.

We don't arrange the facility management for you, but we can advise, so all can be aligned with your goal and end result. We create with your team the matching protocol for every conference to follow.

### Practical information

#### *Time investment*

To get all organised, we schedule the first meeting 6 month before your upcoming conference. Depending on the size of the conference we schedule every week an online meeting of an hour to keep on track with your team. Live meetings and coaching of speakers will be tailor-made and therefore flexible in time investment.

#### *Financial investment*

Custom made starting from € 9997.-  
excl. 21% VAT.

### How do we start?

Before we start we have a personal intake with the key-players around your conference to make sure we are the right fit. The intake is free.

### Location

We need to get a solid feeling about your company or organisation as well as the venue you use for your conferences, so that is the location where the consultation takes place. Team meetings in between, can be provided online.

### Contact

You can contact us by filling out our [contact form](#) so that we can arrange our first meeting and discover possibilities.

In case of any questions, please send an email to [info@presentation-master.com](mailto:info@presentation-master.com).
